SHER ALI KHATTAK

Mobile Application Developer | Flutter | React Native

skhattak30@gmail.com linkedin.com/in/SherAli Portfolio Islamabad, Pakistan

SUMMARY

Self-taught Full Stack Mobile Application Developer with proven expertise in Flutter and React Native frameworks. Experienced in end-to-end development of CRM systems, HRMS platforms, E-commerce applications, IoT and BLE integrations, Desktop Applications, Web Applications, and Food Delivery platforms.

Demonstrated ability to deliver scalable, bug-free, and user-friendly solutions across multiple domains. Proficient in RESTful API integration, database management, and third-party service implementation to build seamless cross-platform experiences. Adept at working with modern development tools, agile methodologies, and software development life cycle (SDLC) best practices.

Committed to continuous learning, emerging technology adoption, and innovation-driven development to meet evolving business and user needs.

EXPERIENCE

Senior App Developer

Beacon Energy Pvt Ltd

09/2024 - Present Islamabad, Pakistan

- Led the architecture, development, and maintenance of multiple cross-platform mobile applications resulting in a 3000+ active user base, 99.9% uptime, and a 40% increase in overall performance across iOS and Android production environments.
- Boosted Bel Connect app performance by 70% through implementing caching and local storage strategies, resulting in significantly faster load times and a reduced number of API calls.

Flutter Developer

Duseca Software

01/2024 - 08/2025 Islamabad, Pakistan

- Improved code quality and on-time delivery compliance by 70% through collaboration with 4 cross-functional teams.
- Introduced and integrated software testing frameworks and QA tools, improving code coverage and reducing post-release bug reports by 30% through systematic quality assurance processes.

Junior App Developer

Dcodax Pvt, LTD

05/2022 - 12/2023 Islamabad, Pakistan

- Developed applications from scratch based on client requirements, focusing on seamless UI, performance optimization, and clean architecture.
- Improved app user engagement by 40% by enhancing UI with Rive and Lottie animations.

Freelance App Developer

Self-employed

2021 - Present

- Worked on 10+ mobile applications on time and within budget.
- Increased client satisfaction by 40%.

EDUCATION

Bachelor of Science in Computer Systems Engineering

University of Engineering & Technology

08/2018 - 08/2022 Peshawar, Pakistan

- Gained experience in computer architecture, embedded systems, programming, networking, and software development.
- Focused on automation, system optimization, and innovative computing solutions.

KEY ACHIEVEMENTS

App Performance Optimization

Enhanced app performance by 50% through systematic code optimization techniques.

Application Development Success

Developed and maintained 10+ high-quality applications, resulting in streamlined workflows, reduced bug rates, and reliable software solutions delivered on time.

FYP Expo

Secured 7th position at FYP Expo for developing an OBD-II based application that detects road bottlenecks through real-time data analysis, achieving measurable improvements in detection accuracy.

SKILLS

Architectures

GetX | Provider | Bloc | Riverpod

Supabase | Firebase | SQLite | Hive

Isar | Augmented Reality

Code optimization | Flutter BLE

Flutter Web | 3rd Party Plugins

Social Auth | OAuth Integration

Push Notifications | Cloud Functions

MVC Architecture | Clean Architecture

Repository Pattern | OAuth | Social Auth

Payment Integration | Custom Animations

PROJECTS

Bel Connect

09/2025 - Present

- **BELCONNECT** is a smart solar monitoring app that provides real-time visibility into solar generation, battery status, and grid flow across multiple plants. It tracks actual vs. expected performance, calculates cost savings, and offers 24/7 customer support — all from a single, user-friendly dashboard.

Wild Sound

02/2025 - Present

- Increased global engagement by 40% through enhanced soundscape experiences from 50+ rivers and rainforests.

EDUCATION

Pre Engineering

Islamia College Peshawar

05/2015 - 04/2017 Peshawar, Pakistan

- Developed a strong foundation in mathematics, physics, and chemistry, with a focus on problem-solving, analytical thinking, and technical concepts essential for engineering studies.

TRAINING / COURSES

The complete Flutter Development Bootcamp with Dart 2021

Travelling

Solving Puzzles

Chess

PROJECTS

OBD - II-based Application with Flutter Framework (Final Year Project)

03/2021 - 03/2022

- Developed an OBD-II based road bottleneck detection application that monitors real-time vehicle data (speed, RPM, idle time) across 500+ data points, reducing commute planning time by 30% and enabling data-driven traffic insights for drivers and city planners.

Pretty Fast (Flutter, Firebase)

03/2024 - 06/2025

- Increased customer connections by 40% through a scalable Flutter-based beauty service booking app solution.

Wheels N Deals

06/2023 - 12/2023

- Cross-platform beauty service marketplace with customer and professional dashboards, appointment management, and booking features across iOS, Android, and Web.

JJ Deliveries

01/2022 - 06/2022

- Increased delivery reach to 1000+ customers by partnering with 20 local restaurants for doorstep service.
- Increased customer satisfaction by 50% by enhancing the order process on JJ's Deliveries app.

OpticalFit

01/2026 - Present

- AR-powered virtual try-on application using ARKit and ARCore for real-time product visualization eyewear with camera integration, 3D rendering, and face tracking across iOS and Android.
